Form of studies	<input checked="" type="checkbox"/> full-time <input checked="" type="checkbox"/> part-time													
Year of studies	III						Semester	<input checked="" type="checkbox"/> Winter <input type="checkbox"/> Summer						
Type of course	<input checked="" type="checkbox"/> obligatory <input type="checkbox"/> limited choice <input type="checkbox"/> free choice / elective													
Course	<input type="checkbox"/> major <input checked="" type="checkbox"/> basic													
Language of instruction	<input type="checkbox"/> Polish <input checked="" type="checkbox"/> English <input type="checkbox"/> other													
* mark <input type="checkbox"/> with an X														
Number of hours														
Form of education														
Unit teaching the course	Lectures (L)	Seminars (SE)	Auditorium classes (AC)	Major Classes – not clinical (MC)	Clinical Classes (CC)	Laboratory Classes (LC)	Classes in Simulated Conditions (CSC)	Practical Classes with Patient (PCP)	Specialist Classes – magister studies	Foreign language	Physical Education obligatory (PE)	Vocational Practice (VP)	Self-Study (Student's own work)	E-learning (EL)
Winter Semester														
Department of Humanistic Sciences in Medicine		30												
Summer Semester														
TOTAL per year: 30														

Department of Humanistic Sciences in Medicine	30												
Educational objectives (max. 6 items) C1. gaining vital knowledge about the relationship between somatic and psychic processes C2. building one's sensitivity to patients' needs C3. learning basic communication skills essential for doctors													
Education result matrix for module/course in relation to verification methods of the intended education result and the type of class													
Number of course education result	Number of major education result	Student who completes the module/course knows/is able to	Methods of verification of intended education results (forming and summarising)	Form of didactic class <i>**enter the abbreviation</i>									
W1	D.W7.	student knows fundamental psychological mechanisms of patients' functioning both in illness and in well-being	oral response, group project, debate	SE									
W2	D.W10.	student explains the role of stress in etiology of illnesses and recognizes mechanisms of coping	oral response	SE									
W3	D.W12.	student describes methods to promote health behaviors in patients and breaking bad news	individual presentation, case study discussion	SE									
W4	D.W4.	student understands the role of verbal and non-verbal signals in the process of doctor-patient communication	Presentation, rehearsal of skills	SE									
W5	D.W15.	student knows the rules of group work	discussion	SE									
U1	D.U1.	in the therapeutic process student takes into consideration patients' needs and subjective expectations resulting from socio-cultural context	group project, discussion	SE									
U2	D.U4	student builds the atmosphere of trust in the whole treatment process	role-plays, practice and rehearsal of skills	SE									
U3	D.U5.	student interviews children, adult patients, and their family members with the use of active listening technique and empathy, as well as discusses patients life situation	presentations, role-plays, practice and rehearsal of skills	SE									
U4	D.U8.	student gives advice on adherence to therapeutic recommendations and healthy	case study	SE									

		lifestyle		
U5	D.U10.	student uses basic psychological interventions to motivate and support their patient	presentation, discussion	SE
U6	D.U6.	Student informs about the goal, process and possible risk of recommended diagnostic and therapeutic procedures	group project	SE
<p>** L - lecture; SE - seminar; AC – auditorium classes; MC – major classes (non-clinical); CC – clinical classes; LC – laboratory classes; SCM – specialist classes (magister studies); CSC – classes in simulated conditions; FLC – foreign language course; PCP practical classes with patient; PE – physical education (obligatory); VP – vocational practice; SS – self-study, EL – E-learning .</p>				
<p>Please mark on scale 1-5 how the above effects place your classes in the following categories: communication of knowledge, skills or forming attitudes: Knowledge: 3 Skills: 4 Attitudes: 3</p>				
Student's amount of work (balance of ECTS points)				
Student's workload (class participation, activity, preparation, etc.)			Student Workload (h)	
1. Contact hours:			30	
2. Student's own work (self-study):			9	
Total student's workload			39	
ECTS points for module/course			2	
Comments				
Content of classes (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects)				
Lectures				
1.				
Seminars				
1. Holistic versus biomedical health models.				
2. Determinants of human perception.				
3. Emotions and activity.
